WORK EXPERIENCE

Walgreens Pharmacy

Elmwood Park, NJ | June 2023 - Present

Pharmacy Technician

- Data entry into system network to communicate with patients, insurance companies, doctors offices, and other pharmacies to ensure patient information and prescription information is accurate
- Retrieving and filling prescriptions for patients
- Selling prescriptions and other items offered at walgreens using the walgreens POS Register system
- Process (correct and resubmit) manual claims for third party program prescription services
- Assists the pharmacist in the performance of other Pharmacy Department duties in accordance with Company policies/ procedures and state/federal law

PERSONAL PROJECTS

Covid-19 Data Exploration

Technology Used: SQL, Tableau, and Excel

Used CDC database to examine Covid-19 metrics worldwide. Created a SQL Server of the data and leveraged SQL to clean up the data, created CTEs and views, and arranged the data for illustration purposes. Utilized Tableau to visualize data pulled and created key metrics for analysis.

Movie Correlations

Language Used: Python

Obtained US movie data from Kaggle database to find out if there were correlations between movies in the past 40 years. Used Python to clean up data, arranged the data and visualized it. Used Python concepts such as: SEABORN, PANDA, and MATLAB throughout the project.
